

To Whom It May Concern:

The Workers' Rights Center will be launching our door-to-door surveying for the Latino Workers Project to gather information about working conditions. We are partnering with a class at the UW and will launch on Monday, March 23. Many of the students are monolingual English speakers or limited Spanish speakers, so we are looking for people who can partner with them to assist with the surveying. We will be going out a few times per week in targeted neighborhoods and sites where we will be able to complete surveys. We will be starting each shift with a training and a review of the survey.

I am writing to ask if you have any students or interested parties that could assist in the shift detailed below (we would like to have up six to eight, English / Spanish, bilingual volunteers per shift...And other shifts and times will become available depending on special events...if interested please call 608.255.0376 or email Carlos):
